## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1-11, 26-38 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected subject matter, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/25/2008. Thus claims 12-25 and 39-61 are presented to examined upon their merits.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 8/26/2008 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 12-25 and 39-61 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rodgers (WO 2001/018712) in view of Bergato (WO 1999/0055629).  
Rodgers discloses a Web-based purchasing method using a networked computer system (100) to facilitate the purchase of merchandise by a purchaser (130) from a seller (140), including buyer approval (page 8 lines 11-12), transaction accounts (page 7 lines 12-14), terms and conditions

(page 6 lines 18-21) and variable pricing (page 12 lines 28-30). The pricing of venues participants, referral services, escrow services would be stored in a database and thus considered inherent to Rodgers.

Bergato discloses a data processing system (10) and method including a host processor (12) and remote terminals (26), for facilitating transactions in precious stones such as diamonds are set forth." I consider that BEP, GATO includes buyer approval (page 29 lines 27-29), transaction accounts (page 15 lines 11-14) and variable pricing (page 9 lines 24-27).

Furthermore, terms and conditions are included in such things as buyer approval and the like. As in Rodgers, it is inherent that a database would store such information linking diamond weight to the fee for the clearing house. Thus, the disclosure of the database is equivalent to your variable pricing matrix.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
